

Detras del asesinato de John F. Kennedy se esconde una compleja conspiracion internacional cuya cabeza visible es Lee Harvey Oswald, pero detras de Oswald hay un nino problematico con un atormentado mundo interior, un joven cuyos ideales entran constantemente en conflicto con la realidad que los niega. Libra es una especulacion asombrosamente veraz, literariamente impecable y escalofriantemente convincente de los sucesos que desencadenaron el asesinato de Kennedy y de la atmosfera general de aquellos tormentosos anos en que el derrumbamiento del gran sueño americano abrio la puerta al secretismo gubernamental. De esta epoca surgen los elementos conspirativos que caracterizan casi toda la obra de este lucido interprete de nuestro tiempo. Figuras reales mezcladas con personajes de ficcion con verdadero virtuosismo e intrigas casi inverosimiles en una de las obras mayores de Don DeLillo, una novela que fascina desde la primera pagina. Escritor obsesivo con un proyecto literario de consciente continuidad, DeLillo es una de las mas importantes voces narrativas de Estados Unidos.
