

Here's the first and only full-color book on the subject of warm, or kiln-fired, glass in print. It provides a comprehensive look at one of the most popular skills for those working in the studio. With lavish illustrations, and all the processes involved in kiln-firing explained, the versatility of the dazzling technique of warm glass comes into clear focus. From fusing and slumping to casting and pate de verre, everything is covered--complete with a corresponding graph on the firing cycle and information on the various types of glass, their compatibility, and their behaviors during firing. Invaluable tips tell how to avoid unexpected and unwanted effects, and also how to create a range of different results and finishes. Close-up pictures show each step in the process being carried out, and breathtaking photos display an inspirational gallery of finished works that are richly colored and gracefully shaped. A brief historical overview of glassmaking provides useful background.

Le 5eme Ange de La Mort (Ldp Thrillers) (French Edition), Collectors Originality Guide Challenger and Barracuda 1970-1974, Motivar Para Aprender En El Aula (Spanish Edition), Charlie St. Cloud: A Novel, The Princess Craft Book: 15 Things a Princess Cant Do Without (Little Button Diaries), Jane Eyre (Persian Edition),
